You will arrive in Amboseli for lunch. Amboseli has an endless underground water supply filtered through thousands of feet of volcanic rock from Kilimanjaro's ice cap, which funnel into two clear water springs in the heart of the park. It is an ecosystem that spreads across the Kenya-Tanzania border and is famous for being the best place in Africa to get close to free-ranging elephants among other wildlife species and also offers spectacular views of Mount Kilimanjaro, the highest free-standing mountain in the world.
